Three Bars is a family owned and operated ranch and caters to the needs of the most discerning guests from all across North America and around the world. Located on 35,000 acres, Three Bars offers one of the most diverse programs of activities available in the industry. Guests can enjoy horseback riding at all levels, hiking, river rafting, mountain biking, fly fishing, tennis, trap shooting, swimming, kids programs, archery, wildlife viewing, golf, pool, a wide variety of tours - or simply do nothing at all. The ranch also features a

heated indoor pool, a hot tub, and a complete fitness facility. In addition to daytime activities, evening events include ranch casino nights, campfire nights, volleyball games, reining horse demos, fire engine games and other experiences. Guests can also head over to the ranch's Saloon for a cold beer, wines from British Columbia or around the world, or their favorite drink. The Three Bars Ranch Store carries a full line of western gear and logo wear. Cowboy boot rentals are also available through the store.

HORSEBACK RIDING

While Three Bars Ranch offers a wide variety of guest activities, its world-class riding program puts the ranch in a class of its own. Three Bars is home to over 110 head of horses. The ranch's horse-to-guest ratio is over 2-to1, allowing the ranch to select the right horse for each rider's individual ability and experience level. The Three Bars riding program was developed and is managed directly by the Beckley family. Riding is always available at Three Bars, but it is never mandatory. Rides are offered every morning and every afternoon. Options include family rides, adult rides, kids' rides, walking rides and fast rides. No other location in the world offers such a superb combination of great horses, beautiful riding terrain and the seasoned experience of world-class horsemen.

KIDS PROGRAM

Three Bars Ranch specializes in making memories families will treasure for a lifetime. Kids of all ages will feel at home at Three Bars Ranch, where they can enjoy wide open spaces just to be kids. Ranch vacations offer a safe environment that children and parents enjoy. The Three Bars program is designed to keep kids and teens busy all day long and well into the night. Kids must be six years of age or older to take part in Three Bars' family-oriented riding and activities program. At Three Bars, our emphasis is on making family memories together rather than children solely doing things with other kids. Programs are devised so families can go on family rides, hike together and river raft as a group. Alternatively, though, kids are welcome to join the kids riding program while adults choose another activity or adults-only ride. Three Bars is small and highly staffed enough to allow for custom vacation experiences for every member of the family.

MEALS

All meals are included in a Three Bars vacation and the ranch's staff specializes in dining with an upscale flair. Dining ranges from traditional homemade favorites to BBQ steak cookouts and Mexican cuisine. Three Bars' in-house chef specializes in fresh breads and homemade desserts. Most meals are served buffet style, although family seating and private dining are options as well. Weekly breakfast rides are generally a Three Bars favorite. Vegetarian and vegan dishes are available upon request, and the ranch can easily accommodate food allergies with advance notice.

VISITORS

Three Bars Ranch is accessible from a variety of domestic and international airports. As a result, the range attracts an evenly mixed group of guests from Canada, the United States and Europe, predominantly the United Kingdom. The wide range of accommodations and activities at Three Bars make it an ideal destination for families, couples, girlfriend getaways, reunions, weddings, groups, and anyone who wants to experience superb outdoor adventure experiences in one of the world's most beautiful vacation spots.
